Specifications are subject to change without notice.

<sup>1</sup> Document print speeds are the averages of ESAT (Word, Excel, PDF) in Office Category Test for the default simplex mode, ISO/IEC 24734.

Photo print speed is based on the default setting using ISO/JIS-SCID N2 on Photo Paper Plus Glossy II and does not take into account data processing time on host computer. Print speed may vary depending on system configuration, interface, software, document complexity, print mode, page coverage, type of paper used etc.

<sup>2</sup> Operation can only be guaranteed on a PC with a pre-installed Windows 7 or later.

<sup>3</sup> When printing ISO/JIS-SCID N2 on A4 size plain paper using default settings.

<sup>4</sup> Page yields may vary depending on content coverage, print settings, temperature, humidity, and frequency of printing.

<sup>5</sup> Declared yield value is the estimated value based on Canon individual test method using the ISO/IEC 24712 colour chart and continuous printing simulation with the replacement ink bottles after initial setup. The colour yield is based on 1 set of composite colour bottles.

<sup>6</sup> The Economy mode reduces the ink consumption by lowering the density. More pages can be printed using this mode.
